

ORT America is revolutionizing science and technology education for over 45,000 students in 87 schools across Israel.

ORT is the largest Jewish education organization in the world. We provide advanced education to over 300,000 people in 55 countries, including Israel, the Baltic and Commonwealth of Independent States, Latin America, and the United States. Jews must remain a vital part of society. We must educate our people wherever they are.

75% of ORT graduates in the USA enter the workforce.
Please give generously. *ORT Works!*

\$75 helps ORT provide the latest technology so students are prepared to enter today's job market and pursue fulfilling careers.

\$250 helps an e-learning center bring students from St. Petersburg or Haifa together with students from Prague or Santiago to learn and interact.

\$550 supports an economically disadvantaged Student at Risk with a year's worth of essential books, school supplies, hot meals and clothing.

\$1,800 trains teachers in Israel for one semester on the use and applications of new science and technology labs.

\$10,000 covers one grade level for one year with extra-curricular programs, such as school trips, after-school programs, and art and theater projects.

\$100,000 funds a state-of-the-art computer lab in Israel, Argentina, or Russia.
